

April

### A Minute with the Board

I've always believed that April is the beginning of new things. The grass is growing and turning a little greener. The air gets a little warmer, the kids are outside more and the neighborhood seems a little more alive. I even saw a baby bunny yesterday jumping around the yard. I love it!

At the IFAPA office, things are jumping too! With only a few days to go until the Spring Conference the staff is very busy! Speakers are getting ready to head our direction and for the first time, we will have a Keynote during lunch, Charlie Applestein, a highly sought after speaker and award winning author!

Kaci and staff have been completely focused on preparations and ensuring that everything is ready. Once again we will be doing the highly popular 50/50 raffle so remember to bring a little cash so you have an opportunity to take home half of what's collected!

The board will be asking for a little feedback in understanding what message you want to ensure our legislature is getting from IFAPA- What issues are important to you and your region. We also want to share the strategic initiatives we are focusing on for 2016.

Be sure to stop and introduce yourself to our board and say hello to Kaci and the staff. We are here to support you and we'd love to meet you! You can find us in our bright blue shirts!

Looking forward to meeting you!

Candi Banghart

IFAPA President
